

# Ultrasound Training for Physicians

2022

**At Zedu, we focus on developing your knowledge, skills and confidence to make you work ready, fast!**

## Ultrasound for General Medicine

3 days

Sometimes a physical exam is just not enough. Use ultrasound to diagnose hydronephrosis, DVT and lung diseases such as pneumonia and pulmonary oedema and manage your patients faster. Increase your success rate and decrease complications when performing common procedures.

18 - 20 July 2022  
5 - 7 October 2022

## Essentials of Musculoskeletal Ultrasound

2 days

Differentiate musculoskeletal injury from arthritic change and manage your patient's problem today. Guide common injections and get better treatment outcomes for your patients.

30 - 31 May 2022  
24 - 25 August 2022  
14 - 15 November 2022

**The power  
of diagnosis  
is in your  
hands**

**We deliver clinically  
focused, fun and  
intensely practical  
ultrasound education  
so that clinicians can  
integrate ultrasound  
safely and effectively  
to improve patient care**

### **Basic Echo in Life Support**

1 day

Develop your expertise in acquiring the basic cardiac views and differentiating normal from abnormal in an arrest scenario.

21 July 2022  
2 December 2022

### **Lung Ultrasound**

1 day

Diagnose lung diseases including pneumonia, pleural effusions, pneumothorax and pulmonary oedema. Confidently use POCUS for Covid-19.

19 July 2022  
6 October 2022

---

### **Essentials of Paediatric Ultrasound**

3 days

Kids are not just small adults so we've designed this program focused on the little people. You will learn about the assessment of kidneys in children, common ailments of the GI tract, how to assess the hip when your patient has a limp and more. Learn how to modify your scanning techniques for the paediatric setting by practicing on real little folk

12 - 14 September 2022

---

### **Ultrasound Guided Vascular Access**

1 day

Confidently use ultrasound to find those tricky veins. Guide your line placement, reduce the risks and improve your success rate.

9 June 2022  
15 September 2022  
24 November 2022
