

## Pregnant Patient Model

### Consent to ultrasound scanning for teaching purposes

A copy of the below consent will be provided to sign when you arrive for your scan.

If you have any questions or concerns please contact Samuel on

[samuel@ultrasoundtraining.com.au](mailto:samuel@ultrasoundtraining.com.au) or 0401 810 585

I hereby consent to undergo a pregnancy examination by ultrasound with Zedu either by way of one or multiple examinations for teaching purposes.

- I understand that during these procedures a registered medical practitioner or qualified sonographer will use an ultrasound machine to image my body using high frequency sound waves.
- I understand that a gel medium will be applied to my skin and a sound source (transducer) will be placed against my skin to generate an image of my internal body organs.
- I understand that ultrasound imaging is a clinically accepted medical diagnostic technique and that medical studies to date have not demonstrated any adverse biological affect at the low power intensities used for diagnostic imaging.
- I understand the scan is for teaching purposes only and it is not intended to provide either myself or my doctor with diagnostic information. I understand that if there are unexpected findings Zedu Ultrasound Training Solutions will advise you and contact your doctor as a courtesy. I acknowledge that I will need to be referred by my doctor for formal imaging to document the findings.
- I understand that Zedu Ultrasound Training Solutions cannot generate a formal report.
- I understand that ultrasound does not cause any known harm to the unborn baby and cannot cause miscarriage.
- I understand that the doctors participating in this training course are here for training purposes only and are not available for consultation or to write medical certificates or to write prescriptions.
- I understand that the risk of a physical accident such as a fall etc. is small but present (please notify a representative of *Zedu Ultrasound Training Solutions* of any known health problems).
- I understand that no assurance can be given that the ultrasound will be performed or administered by any particular practitioner.
- I have had all my questions answered to my satisfaction and I understand that I am free to withdraw my consent to participate in this examination at any time.
