Tired of struggling to get the most out of your training time?

Want to take the pain out of teaching & see results faster?

We all know that effective teaching requires more than just knowing how to scan.
It's all about unlocking your knowledge & making it more accessible for your learners.

Take time out to develop your skills as a teacher.

The Zedu Train the UltraSound Trainer (TRUST)[™] course is for anyone who finds themselves teaching ultrasound or supervising students.

The ultimate course for anyone teaching ultrasound or supervising students.

Suean Pascoe

BAppSc, GDMU
Grad Cert Clinical Teaching
FAIUM, Sonographer Educator

- Learn how to break down the art of ultrasound & sequence teaching for faster results
- Learn systems to support your teaching and maximize limited training time
- Learn strategies for effective supervision

Take the first step to being the clinical supervisor you've always wanted to be. Register now!!

Day One

Matching teaching and learning styles

- Adapting your teaching style for optimum results

How do we learn best?

- Understand cognitive load & why it makes learning difficult
- Tips to minimize cognitive load
- What is chunking & why does this help?
- Strategies to scaffold learning

Structure and sequence learning

- How to deconstruct a skill to discover the minimal learning units
- Figure out what to teach
- Sequence teaching in the best order for maximum results

A structured method to teach image acquisition

How to teach sonoanatomy and spatial reasoning

Suean has created the Train the Ultrasound Trainer (TRUST) program with one objective in mind – to get results FAST!

Having worked alongside doctors, nurses and allied health professionals around the world, Suean has experienced the frustration & complexities associated with ultrasound training

TRUST condenses over 20 years of clinical & education experience to simplify ultrasound training, delivering a step-by-step solution that will make your job easier & more rewarding

“Join us for the Australian debut of this internationally recognised program
Your students will love you for it!”

"I want to be as effective as possible for my learner's sake, & this course has helped in streamlining my teaching & given me resources to adapt to make the learning experience better for everybody"

Jo Clancy (RDMS) Sonographer Tutor

"TRUST focuses on teaching for ultrasound & you get a really good understanding of how to teach for that type of learner."

Yvonne Brotzman (RDMS) Ultrasound Program Director Baltimore

"I think this course is a must take for anyone who wants to teach ultrasound"

**Dr Gig Liu (M.D., M.Sc.), Director Pocus Education
Johns Hopkins Dept of Medicine**

Day Two

Lesson Planning

- The six steps in planning an effective teaching session

How to communicate the probe moves

- The argument for using a common lexicon
- How to teach probe manipulation
- Tips for teaching spatial reasoning

How to keep learners engaged

- Ten strategies for keeping learners engaged & getting the most out of your practical teaching sessions

Effective clinical supervision

- How to keep learning relevant
- Reflective practice
- Goal setting
- Effective feedback

The ultrasound instructor's toolkit

- The essential tools for successful teaching
