

# Echo Courses 2023

**At Zedu, we focus on developing your knowledge, skills and confidence to make you work ready, fast!**

## Focused Cardiac Ultrasound

3 days

Move beyond the basics and build confidence in performing and interpreting bedside echo. This immersive program has loads of practical, hands-on learning so you can troubleshoot your image on those difficult patients.

Topics covered include: cardiac tamponade, PE, preload responsiveness, ventricular contractility, significant valvular pathologies and assessment of respiratory failure.

27 February - 1 March 2023  
26 - 28 April 2023  
7 - 9 June 2023  
19 - 21 July 2023  
11 - 13 September 2023  
8 - 10 November 2023

## Ultrasound Scanning Practice

1 day

Tailor a practice package to help prepare for exams, develop your skills or refresh your training.

## Lung Ultrasound

1 day

Diagnose lung diseases including pneumonia, pleural effusions, pneumothorax and pulmonary oedema. Confidently use POCUS for Covid-19.

20 February 2023  
17 May 2023  
25 August 2023  
4 October 2023  
6 December 2023

## Basic Echo in Life Support

1 day

Develop your expertise in acquiring the basic cardiac views and differentiating normal from abnormal in an arrest scenario.

14 February 2023  
30 March 2023  
22 June 2023  
28 September 2023  
15 November 2023
