15 November 2023

Lung Ultrasound

1 day

Diagnose lung diseases including pneumonia, pleural effusions, pneumothorax pulmonary oedema and Covid-19.

20 February 2023
17 May 2023
25 August 2023
4 October 2023
6 December 2023

Essentials of Paediatric Ultrasound

3 days

Kids are not just small adults so we've designed this program focused on the little people. You will learn about the assessment of kidneys in children, common ailments of the GI tract, how to assess the hip when your patient has a limp and more. Learn how to modify your scanning techniques for the paediatric setting by practicing on real little folk.

3 - 5 April 2023
25 - 27 October 2023
