Essentials of Paediatric Ultrasound

3 days

Kids are not just small adults so we've designed this program focused on the little people. You will learn about the assessment of kidneys in children, common ailments of the GI tract, how to assess the hip when your patient has a limp and more. Learn how to modify your scanning techniques for the paediatric setting by practicing on real little folk

3 - 5 April 2023
25 - 27 October 2023

Lung Ultrasound

1 day

Diagnose lung diseases including pneumonia, pleural effusions, pneumothorax and pulmonary oedema. Confidently use POCUS for Covid-19.

20 February 2023
17 May 2023
25 August 2023
4 October 2023
15 November 2023

Ultrasound for General Medicine

3 days

Sometimes a physical exam is just not enough. Use ultrasound to diagnose hydronephrosis, DVT and lung diseases such as pneumonia and pulmonary oedema and manage your patients faster. Increase your success rate and decrease complications when performing common procedures.
